Computer science and engineering student with a background in **front-end web development**. By creating a fully functional website with **React js** as the frontend and **Express JS** and **Python** in the backend and making it available to my 100 college students, I solved a real-world problem that my friends and I were having in understanding **data structure and algorithms**. Seeking to become the next **front-end developer**.

SKILLS

- C/C++|Python
- React JS|Node JS|Express JS

- HTML5|CSS|JS
- Git

PROJECTS

SEPTEMBER 2022 – DECEMBER 2022
V-CODE | CODE VISUALIZING WEBSITE
WEBSITE LINK : HTTPS://V-CODE.NETLIFY.APP/

Created a website that **visualizes code** and helps understand it in a faster and more efficient manner.
Created a **fully responsive** website using **React JS** as the frontend and Express JS and Python as the backend.
Understanding **algorithms** and other codes was easier and clearer than ever, according to 100 students at my college.

EDUCATION

EXPECTED MAY 2025
B.TECH IN COMPUTER SCIENCE , KEC DWARAHAT UTTRAKHAND

On Dec 17, 2022, in BTKIT DWARAHAT, I participated in gohackethon's **ideathon** and competitive coding and gained knowledge about **industrial needs**.

MAY 2021
INTERMEDIATE, J.N.V CHAMOLI UTTRAKHAND

Extra curriculum: At the school and district levels, I actively participated in quizzes, **speeches**, debates, and GD and received **ranks** lower than 3 in many of them.

ACTIVITIES

Active member of **SAVI**, a college club that has been around since 2000 and focuses on making leaders.
